

I am totally against any cable or phone company being able to gain complete control over Internet access. I believe we should be allowed to choose whichever ISP that we want. I am very happy with the ISP I am using and RESENT the fact that someone is trying to tell me that I have to go with a certain provider because of my address. I believe the phone and cable companies make more than enough money already and RESENT being told I HAVE no choice over who I want to use! This is America, a DEMOCRACY not a Monopoly! This also would put many people out of work and hurt our economy in our community. I work for The Salvation Army and I see enough people out of work and RESENT the thought of a company being able to hurt the people in my community that way!
